

Certified Program Report

Co-Supervisors: Wally Shank & Bill Somers

Currently there are 8 RMD patrollers who are candidates in the Certified Program.

During the 2009 / 2010 ski season we had 2 Clinics, One in Ski Sunlight and one at Monarch, as well as an Evaluation at Monarch.

7 patrollers were successfully evaluated on modules this past season.

There are 2 Certified Clinic / Evaluation weekends scheduled for the 2010 / 2011 ski season. One at Ski Sunlight, CO and one in Pajarito, NM

This is the largest number of registered Certified candidates in RMD for over 10 years.

Goals of the RMD Certified Program is to continue to enlist new candidates and provide enough clinics and evaluations that candidates can attend enough clinics and evaluations that it will be possible to achieve Certified status within one to two years after registering in the program.

Nationally, an effort is underway to consolidate all of the Certified Programs in the US under one umbrella so that once Certified, it will be a relatively simple matter to gain reciprocity in other Divisions.
